MEMORANDUM FOR THE RECORD

SUBJECT : DCI Morning Meeting

25X1
25X1
1. The question as to the political status of Korea was raised by General Carter, and I asked guidance on the desirability of [redacted] at this time. While it was agreed that the political situation was unstable, all agreed that we should not make any change [redacted]

2. I reported on the status of the U-2 generators, OXCART and the recent NSAM 192 paper.

3. The DCI and Mr. Gilpatric have both signed the new NRO agreement.

4. Mr. Bross raised the question of the Agency budget which will be submitted shortly to Congress with appreciable increases over previous versions to account for certain paramilitary activities and the CIA portion of the NRP. Mr. Bross indicated some uncertainty as to how the funding arrangements for the NRP should be carried out. It was agreed that we would draft a funding mechanism paper for submission to McMillan which would incorporate CIA views on the best procedures. Mr. Bross will arrange to have someone prepare an initial draft for our review.

5. DCI and senior Government officials are still very much disturbed about our lack of knowledge on the Soviet personnel situation in Cuba. As soon as the Donovan mission is completed (possibly Saturday), the DCI wishes to have a special Special Group meeting called to consider the proposed low-level flights. I pointed out that under the new NRO Agreement the presentation to the Special Group should be made by the NRO, and I undertook to get McMillan prepared for this presentation on an emergency basis at any time over the weekend.

NRO review(s) completed.
